THE MONTHLY SCOOP - TSC CONTINUING EDUCATION

Retail Math Basics

Numbers play a role in every retail business. From sales volumes to inventory counts, retailers need to understand how math can help them be successful. This course will cover some of the basic measurements and calculations used in the retail world. You will strengthen your math skills by working through examples and exercises, including calculating common retail metrics.

Tuition is \$99 with an access time of 90 days to complete this online 5-contact-hour course.

The Trinidad State Collaboratory is a community makerspace and small business incubator aiming to empower the economic and creative development of Trinidad's diverse community and its members.

YOUTUBE FOR BUSINESS

Next class starts July 4-28

yougotclass.org/course/index.cfm/Lern/YouTube-for-Business

\$245 (online course)

Increase your business with YouTube, the online video site and now the second largest search engine. Discover the power of video for your organization, and how to use video as a marketing tool to reach and serve more people.

Find out what types of video work best on YouTube, how other business organizations are using YouTube, how to create your own YouTube channel, and the techniques of adding captions, annotations and other extra features.

YouTube can enhance your current marketing and communication strategy. After attending this course you will take back proven strategies and techniques for making YouTube work successfully for your organization.

"You do have to try, learn, and improve. You do have to put yourself out there and risk failure. But in this new world, you don't have to go bankrupt if you fail because you can fail small. You can innovate as a hobby. Imagine that: a nation of innovation hobbyists working to make their lives more meaningful and the world a better place. Welcome to the maker revolution." —

Mark Hatch, *The Maker Movement Manifesto: Rules for Innovation in the New World of Crafters, Hackers, and Tinkerers*
