TRINIDAD STATE CONTINUING & COMMUNITY EDUCATION

Trinidad State is pleased to announce the availability of a Bachelor's of Applied Science in Business Administration beginning in the spring of 2025.

Visit [trinidadstate.edu/business/bas](http://trinidadstate.edu/business/bas) for complete information and requirements.

Trinidad State will be offering the following BAS courses this spring:  
MAN 3050: Innovation and Change Management  
BUS 3020: Business Law & Ethics  
MAN 3030: Contemporary Management

Additional courses will be offered through the Consortium.

Computer Information Systems  
Computer Networking  
Computer Science

While a computer is an inherently diverse tool, businesses generally use a group of networked computers to collect, organize, store, and transmit information. This network is also known as a computer information system. In the field of computer information systems, professionals work to optimize the application of networked computers in business environments. Trinidad State offers pathways to careers in CIS, CN, and CSC. For complete information visit [trinidadstate.edu/cis/](http://trinidadstate.edu/cis/)

Trojan schedules and team news is available at [tsctrojans.com/](http://tsctrojans.com/)

**SPRING REGISTRATION IS OPEN!**

Make an appointment with an advisor to discuss your options  
Trinidad Campus: 719-846-5026  
Valley Campus: 719-589-7296

I maintained my edge by always being a student; you will always have something new to learn.

~Jackie Joyner Kersee~

## Medical Terminology: A Word Association Approach

The Medical Terminology – A Word Association Approach course will teach you to understand medical terminology as it pertains to each body system. Using graphics and study tips you will not only learn definitions and root terms, but also their application in the medical world. Learning blocks are used to condense information and to help isolate what you need to know verses what is nice to know, and you will be provided with fun and unusual facts to help you remember the medical terminology in unique ways. You will have opportunities to see how medical terminology is used in the real world through case study assignments and will be provided with flashcards to help you study. The knowledge gained in this course will help you take the next step in your medical career or education.

### Completely online course - \$135.00

Available as self-guided or instructor moderated  
Next instructor-moderated class starts November 13,  
2024 or December 18, 2024

## Creativity in your Gifted Students

*In partnership with Model Teaching, an industry leader in supporting educators, this course will guide you in understanding the characteristics of giftedness and the importance of fostering creativity in your classroom.*

*This creative classroom course will deepen your understanding of giftedness and its connection to creativity. It will also provide practical strategies like brainstorming activities, Science, Technology, Engineering, Arts, and Mathematics (STEAM) challenges, and passion projects to foster creativity in your classroom. You will learn how to establish a learning environment that encourages creativity and supports gifted students who may struggle in this area.*

*This self-guided, online course can be started at any time.*

*Cost is \$44.00*

*The course also includes a downloadable PDF and a strategy plan template to help you implement and evaluate creative activities tailored to your student's needs.*

Did you know?

According to [back2college.com](https://back2college.com) adult learner completion rates are high, with 68% of adults starting a degree at a community college completing the degree.

Over the past six years, one third of the students attending Trinidad State have been over the age of 25. Over that same time period, 40% of our graduates were over 25 years old.
