TRINIDAD STATE CONTINUING & COMMUNITY EDUCATION

Career & Technical Education

CTE stands for "Career and Technical Education," a type of program that aims to link students with tangible work skills and connections to various industries. Our programs make sure the lessons that students learn are aligned with industry standards, meant to ensure students are learning up-to-date skills and techniques.

In the next decade, the United States will have 51,000,000 job openings that can be filled by CTE graduates. Of those 51 million jobs, 16,000,000 will be new, meaning they either didn't exist in the past or they were created to address rising demand in different areas. That's an incredibly strong career outlook, especially for students who don't need a two- or four-year degree to earn those careers.

In fact, CTE graduates who pursue careers after high school have similar income opportunities as any other educated group of their peers. In other words, you don't have to be a software developer to make a good living.

TSC CTE PROGRAMS INCLUDE:

Agriculture (Valley campus only)
Automotive Service Technology
Computer Information Systems
Construction Technology
Cosmetology
Gunsmithing (Trinidad campus only)
Line Technician (Colorado Springs campus)
Medical Assistant Professional (Valley campus only)
Trailbuilding (not-for-credit, Trinidad campus only)
Welding Technology

BUSINESS ADMINISTRATION
CHECK THE SCHEDULE AND REGISTER TODAY TO GET YOUR HEAD START ON YOUR IN-DEMAND BUSINESS CAREER!

At Trinidad State College, we are committed to ensuring a successful transition from higher education to the job market. In line with our "Students First" philosophy, we are excited to offer a Bachelor of Applied Science degree in Business Administration with a concentration in Management. This program is designed to empower you with the skills and knowledge needed to excel in today's dynamic business environment.

It's not who you are that holds you back, it's who you think you're not.

~ Denis Waitley ~

The Makerspace at Trinidad State

The Makerspace at Trinidad State is a community makerspace and small business incubator aiming to empower the economic and creative development of Trinidad's diverse community through learning, collaboration, knowledge sharing, and hands-on opportunities to explore new skills and knowledge. Start-up businesses may use the equipment to create items to sell. A membership is required and you will need to provide your own supplies.

The Makerspace is in the process of moving from the Berg building to the 3rd floor of the Freudenthal Library. During this transition time we will only be open for special groups who have reserved the space.

An open house will be announced when the space is ready. Most likely this will be in mid to late January.

A current list of equipment is available at trinidadstate.edu/makerspace/pdf/equipment_01.pdf

Project Management Skills: Planning and Project Design

At the beginning of a project, your responsibilities as a project leader will largely revolve around designing a plan that aligns with your organization's strategy while providing fully functional deliverables that meet your stakeholders' needs. This self-paced, fully online course will introduce you to the tools, techniques, and strategies you can use to develop successful projects and release plans.
