

TRINIDAD STATE ARTIST LECTURE SERIES

TSC ARTS PROUDLY PRESENTS

JENNIFER KORSEN

A third generation Angeleno, Jennifer has been drawing, painting, and crafting as far back as she can remember. Her art pulls from deeply personal spaces, and the city of Los Angeles. A city that is ever changing, a city with a heart beat. Her "Heart" pieces serve as powerful symbols, something we all want, something we all need. The heart is the great equalizer, an image that most people connect to, but for very individual reasons. The full emotional spectrum — love, hate, vulnerability, strength, connection, life, death, pleasure, and pain—can all be recalled

THURSDAY, NOVEMBER 17 ~ 5:30-6:30
