

TRINIDAD STATE COLLEGE

2025 COMMENCEMENT

A MESSAGE FROM THE PRESIDENT

Today, you turn the page on a chapter in your life. It is your graduation day – a day of celebration and achievement. Everyone's path to this point has been unique, but all have been filled with challenges, doubts, and uncertainties. And yet, you made it! Take a deep breath and enjoy this moment of sweet success.

You should feel proud to be graduating from Trinidad State – a college that has stood the test of time. As you graduate in 2025, we are celebrating the founding of Trinidad State College 100 years ago – in 1925! Now our history is inextricably tied to yours. We are proud that you will be using your education and experience to make a difference in the world. We need it now, more than ever.

Remember the hard work you put in to reach this milestone. It will come in handy in your next endeavor, whether that be advancing your education or joining the workforce. The skills you learned here have set you up for a bright future.

Congratulations! You did it!

Sincerely,

A handwritten signature in black ink that reads "Rhonda M. Epper". The signature is fluid and cursive, with a long, sweeping tail on the last name.

Rhonda M. Epper, Ph.D.
President, Trinidad State College

VETERAN GRADUATES

The red, white, and blue honor cords are one way to show our veterans how much we appreciate their service, through their self-sacrifice in addition to the pride we feel for their latest academic success. We hope these cords will inspire a sense of pride and patriotism not only in our veteran graduates, but in every one of us.

2025 VETERAN GRADUATES

Hunter E. Clark	Tyler B. Lague	Aaron R. Tarin
Esmeralda Cortez	Robert A. Martin III	Michelle M. Trujillo
Josue E. Diaz	Briscoe W. Moats	Horacio J. Valerio
Joseph A. Escobedo	Sean P. Mullen	Harold J. Walker
David A. Hammel	Shane L. Nibert	
Justin C. Hughes	David B. Shaw	

COLLEGE MACE

The origination of the mace dates back to medieval times when it was first used as a weapon. Medieval European Bishops forbidden the use of the sword were allowed to enter battle with a mace, often an iron or steel club designed to split armor. By the 16th century, the mace, a symbol of authority, was embraced as a ceremonial object by colleges and universities. Traditionally, the mace is carried as part of formal academic occasions.

The College Mace will be carried by the following.

Dr. Jodi Garcia, Ed.D. serves as nursing faculty on the Valley campus where she teaches in both the associate degree and bachelors degree programs as well as serving as the Valley Campus nursing site coordinator. Dr. Jodi is a Valley native, born and raised in the San Luis Valley. She started her nursing career after earning her licensed practical nursing certificate from the San Luis Valley Vocational School. She continued to follow her passion for nursing and helping others by graduating with her associates degree in applied science in nursing from Trinidad State. She later earned her BSN from University of New Mexico.

James Brunelli is the 2024-25 Faculty Member of the Year. Jim has a wonderful outlook on life which is contagious. he makes each person he encounters feel important. His mentoring approach in the classroom has led to impactful learning and productive, successful careers for students. Jim grew up in the area and graduated from Trinidad State's Automotive Technology Program, then worked in the industry for two local auto shops for nearly 30 years before shifting gears to teaching. Throughout his career, he has pursued continuing education opportunities keeping his credentials sharp and adding new certificates. One colleague noted "Jim is one of the most impactful people I have ever met."

ABOUT TRINIDAD STATE COLLEGE

Established in 1925, Trinidad State College is celebrating it's 100th Anniversary this year and was the first community college in Colorado. With campuses in Trinidad and Alamosa, we provide accessible higher education to students in southern Colorado and beyond. Trinidad State offers career programs in fields such as Computer Information Systems (CIS), Cosmetology, Nursing and Welding. We also have a Line Technician program as well as Theatre Technology in addition to traditional academic Arts and Sciences classes and a guaranteed transfer program through a partnership with four-year colleges and universities in Colorado. We are home to one of the first, and by most accounts, the premier Gunsmithing School in the United States. Our support of and strong partnership with Emergent Campus drives student opportunities and community prosperity.

We excel at serving our local communities and students who come to our campuses to feel a sense of belonging. We have the highest completion rates of any community college in Colorado.

We offer the full college experience in a small-town setting including dining and residence halls and we feature seventeen (17) intercollegiate sports teams, a robotics team and an eSports team. Welcome to Trojan Territory! Our spacious 17-acre Trinidad Campus is home to the newly renovated Samuel Freudenthal Library and Loudon-Henritze Archaeology Museum.

Our Valley Campus in Alamosa offers a considerable selection of courses including Nursing, Cybersecurity, Welding, Auto Mechanics and the Law Enforcement Training Academy. On either campus we prepare students for a continued education at a four-year college or university or a job in our communities.

Trinidad State has been continually accredited by the Higher Learning Commission since 1962. We are a proud Hispanic Serving Institution (HSI).

Mission Statement

Enrich our diverse communities through quality educational experiences and lifelong learning.

Vision Statement

Driving shared prosperity in our communities.

Core Value

Students First. We put our students at the forefront of everything we do; our primary role is to provide students with the tools they need to succeed.

TRINIDAD STATE COLLEGE HONORED ALUMNI

ALAMOSA CAMPUS

Brandon Bertsch, 2015, was born and raised in Alamosa, Colorado, and graduated from Alamosa High School in 2012, where he was a key member of two state championship wrestling teams and named Athlete of the Year. Motivated by a difficult upbringing marked by domestic violence and the impact of addiction on those around him, Brandon chose a path in law enforcement to make a difference in his community. He began his journey at Trinidad State, earning an Associate of Applied Science in Criminal Justice in 2015 and completing the Law Enforcement Academy the following year. He went on to earn a Bachelor's degree in Criminal Justice and Administration from Columbia Southern University in 2021. Brandon served with the Alamosa County Sheriff's Office from 2014 to 2017 before joining the Alamosa Police Department, where he worked in patrol, then as a detective, specializing in narcotics, homicide, and sexual assault cases. In January 2025, he was promoted to Captain of the Support Services Division, where he now oversees Investigations, Code Enforcement, and Co-Responder teams. Brandon credits Trinidad State for providing an accessible, life-changing opportunity that helped him build a meaningful career rooted in service and resilience.

TRINIDAD CAMPUS

William Flecksteiner, 1965, was part of the first Computer Maintenance course offered at Trinidad State, studying under Bill McCarthy alongside just three other students. After graduating in 1965, he was hired by UNIVAC Defense Systems and began a long and distinguished career in computer systems supporting the U.S. military. William married Donna Jean Cordova and went on to work with the Army at the Pentagon, the Navy in San Diego and Rhode Island, and the Marine Corps in California. Early in his career, he helped UNIVAC establish a recruiting pipeline with the College's growing computer program. Following his time at UNIVAC, William joined Lockheed Martin in Colorado while also serving as a Reserve Sheriff's Deputy in Jefferson County—a position he held for 36 years. He credits Trinidad State and the late Bill McCarthy for laying the foundation for his successful and rewarding career in computing.

Doug Holdread, 1975, grew up in Elkhart, Indiana, and served four years in the U.S. Coast Guard after high school. In 1972, he came to Colorado as a Mennonite Volunteer in Walsenburg before enrolling at Trinidad State to study art under Bill Johnson, a student of Arthur Roy Mitchell's original program at TSC. Doug continued his education at Fort Lewis College and later earned a master's degree in art from Adams State College. Returning to Trinidad, he taught art at Trinidad Catholic High School and at Trinidad State, where he also served as a counselor and instructor in the federal TRIO programs—Student Support Services and Upward Bound—and eventually led the Art Department. He retired in 2013 after more than 30 years of service. In addition to his teaching career, Doug gained recognition for his historical illustrations and award-winning paintings. His depictions of the Santa Fe Trail have appeared in numerous publications and are

featured in National Park Service exhibits along the trail, from Independence, Missouri, to Santa Fe, New Mexico. In 2023, the Santa Fe Trail Association honored him with its Award of Merit for preserving and promoting the trail's history through his art. Trinidad State is proud to showcase Doug's watercolor *Berg in Summer* as the backdrop for its 100th anniversary, a piece that beautifully captures the College's first building. Doug and his wife, Lori, continue to create and exhibit their work at their studio-gallery in downtown Trinidad.

Rob Cuccia, 1985, graduated from Trinidad State with Associate degrees in Electronics Technology (1984) and Computer Maintenance (1985). With over 39 years of experience supporting the United States Navy, his career began at Sperry Univac at the Naval Surface Warfare Center in Virginia. In 1993, he moved to California to continue his work on combat and weapons systems for Navy ships. Rob played key roles in advancing technology aboard AEGIS-equipped cruisers and destroyers. While working full-time, he earned a Bachelor's degree in Information Systems from the University of Phoenix in 1999. He later served as Lead Project Engineer for Combat System Ship Qualification Trials and as Division Manager for both the AEGIS Combat Systems Baseline Engineering Division and the Combat Systems Engineering Division for all surface ships. Rob received a Civilian Service Achievement Medal from the Department of the Navy. He credits TSC instructor, Paul Montera, who headed the electronics program, for shaping his work ethic and providing a strong foundation for his success. Rob is married to Julie and has two sons, Nicholas and Jacob.

Mikey Curro, 1995, earned his Associate of Arts degree in Music from Trinidad State, launching a career that has spanned public service, education, and the arts. A Trinidad native and son of Fisher's Peak Fire Chief Buddie Curro and Doris Valenti, he gained lifelong skills through work-study in the Audio Visual department, mentored by Doug Bak and Mike Salbato. He transferred to the University of Northern Colorado, earning a Bachelor's degree in Theatre with an emphasis in technical design. Mikey later returned to TSC to complete the police academy and served with the Trinidad Police Department for seven years, serving as a dispatcher, police officer, and ultimately as the Director of the Emergency 911 System. In 2006, his passion for music brought him back to Trinidad High School as Director of Music, where he led the band to numerous accolades. He went on to earn a Master's in Educational Technology from CSU-Pueblo in 2012 and now teaches at Heaton Middle School, where he has developed the district's technology curriculum. His wife Molly calls him a "Jack of All Trades"—to which he often replies, "I learned that at TSC."

LiAnn Richardson, 2005, was raised in Trinidad and began her academic journey at Trinidad State, earning her associate degree in 2005. She later completed a bachelor's degree at Adams State University and a Master of Science in Education and Leadership from Capella University. After more than a decade in K-12 education—including roles as a teacher and academic director for the Upward Bound Program—she transitioned to higher education in 2016. In 2024, she was named Dean of Instruction at Trinidad State. Her

work includes contributions to the new Bachelor of Applied Science program and the COPERR Grant Project, though her greatest passion lies with the Prison Education Initiative, where she advocates for educational access for incarcerated individuals. A cancer survivor, LiAnn is also an active supporter of the American Cancer Society. She is deeply grateful to her parents, Julian and Jan Martinez, her loving husband, Michael Richardson, and her children, Stephen, Phoebe, and Joshua. She credits her achievements to the support of her family, colleagues, friends, and the wider community.

Kaitlyn Mantelli, 2015, graduated from Trinidad State with three associate degrees—Associate of Science, Associate of Arts, and Associate of General Studies— an accomplishment that reflects her dedication and love of learning. She had the distinction of being selected as the student speaker for her class at commencement. After transferring to the University of Colorado–Colorado Springs, she earned a Bachelor’s degree in Biology/Biomedical Sciences. Kaitlyn spent three years in Colorado Springs working as a rehabilitation tech at an integrated medical office before deciding to pursue a career in medicine. In the fall of 2021, she began medical school at Creighton University School of Medicine in Omaha, Nebraska. Upon graduating in May 2025, she will begin a three-year Family Medicine residency at Via Christi in Wichita, Kansas. Motivated by a desire to care for patients across all stages of life, Kaitlyn looks forward to serving her community as a family physician. She credits her hometown of Trinidad and Trinidad State College for shaping her path, helping her achieve her goals, and providing her with countless fond memories.

ACADEMIC DRESS

The tradition of the academic costume began during the thirteenth century in early European universities. Through the years, diversity in color and style of cap, gown and hood developed. In the late nineteenth century, the colleges and universities in the United States adopted a uniform code governing academic dress.

Today, the gown, hood, and mortar board worn by the graduates in most institutions follow this code. The gown worn by the associate degree candidate, the bachelor’s candidate, and the master’s degree candidate are most often black or a dark color.

Although usually black, the doctoral gown is sometimes seen in colors. The opening of the doctoral gown is faced with velvet and three velvet chevrons run across its bell-shaped sleeves. Colors used on the hoods serve as identification for the degree earned.

The Oxford cap, usually referred to as a mortar board, completes the attire. Associate degree candidates and bachelor’s candidates wear tassels on the black cap, fastened by a button on the top. After degrees have been conferred, tassels will be moved from the left front to the right front of the mortar board.

*At the foothills of the Rockies
Glorious to view
Stands our noble Alma Mater
Towering toward the blue
Lift the chorus ever onward
Blue and Gold are we
Hail to thee our Alma Mater
Hail TSC*

To commemorate this special event we ask that graduates take a photo or video of themselves and post it on social media tagged with #TSC100
