

Single Action Revolver Modifications (Tuning)

\$400 or 2 credit hours

In this course we be working on Colt style single action revolvers and Ruger single action revolvers. We will explore the cycle of operations and timing of each and how to perform a complete action job, this will reduce the trigger pull weight along with cleaning up the entire feel of the action.

Ryan Newport is an alumnus of Trinidad State College. After graduation he spent several years working as a repair gunsmith for Browning Arms on their high end line of shotguns and rifles. Ryan returned to TSC in 2011 as an Associate Professor of Gunsmithing teaching Bench Metal, Firearms Conversions, Firearms Metal Finishing, Alternative Metal Finishes, Shotgunsmiting, Custom Pistolsmithing, and Firearms Repair.
