

Policy on Solicitation

Solicitation by students or groups for the purpose of selling merchandise or services, or obtaining contributions on campus or off campus by recognized college organizations, is subject to authorization. Proceeds from sales must be used toward fulfilling the purpose of the soliciting organization. Applications for authorization to solicit must be made through the Student Leadership Council.

Requests by student organizations to solicit contributions off campus must be approved by the Dean of Students. Solicitations by individuals or non-college groups are prohibited except through the established college sales outlets.
