TSC THEATRE

Trinidad State's Theatre Department prepares our students for careers in the theatre/entertainment industry through in-depth scholarly study and hands-on training. Programs provide comprehensive curricula on stage design and management, costume and set design, lighting and sound, as well as acting, directing, creative writing for the stage, and more. Students work with our faculty in small classes to produce a variety of theatrical events each semester, including a full dramatic production each spring. Working in Trinidad State's newly renovated Massari Theatre as well as at a variety of venues in and around Trinidad, students learn collaboration, creative problem solving skills, and community engagement, as well as the technical background needed for success in the theatre and entertainment industries.
